CONNECTOR, RAMP TO CLOSE IN CORONA THIS SUNDAY

Corona – The California Department of Transportation (Caltrans) will close the eastbound 91 / southbound I-15 connector and the eastbound 91 Main Street on-ramp on Sunday 9/19/04, from approximately 6 AM to 11 AM, for needed guardrail repairs. The current work plan involves completing repairs on the connector first, then moving to the ramp. Caltrans is committed to making every effort to open the connector as soon as possible and before the posted time.

To detour the connector, continue eastbound on 91 to the McKinley Street off-ramp, across to the westbound 91 on-ramp, back on the westbound 91 to the southbound I-15 connector. Or, go north on I-15 to the Hidden Valley Parkway off-ramp, and across to the southbound I-15 on-ramp. To detour the Main Street ramp, access eastbound 91 from Lincoln Avenue.

Caltrans thanks motorists for their patience and cooperation during this project, and reminds everyone to SLOW FOR THE CONE ZONE.
